Professional Experience

Science Olympiad Foundation (SOF) | MTG Learning Media

Frontend Developer

Mar 2025 – Present
Noida/Gurugram (Remote)

- Developed 8+ major frontend modules for ERP system using React.js, including CRM, HRMS, LMS, and Logistics dashboards.
- Integrated 25+ REST APIs and managed global state with Redux Toolkit, reducing data inconsistency issues by 40%.
- Built interactive dashboards with Highcharts and ApexCharts, enabling real-time KPI tracking for management.
- Improved initial load time by 30% using lazy loading, code splitting, and memoized components.
- Collaborated with backend engineers to design API contracts, reducing integration bugs by 25%.

Kashish Technology Pvt. Ltd.

Frontend Developer & Web Designer

Oct 2023 – Mar 2025
Noida

- Developed and maintained 45+ responsive websites and web applications for e-commerce, real estate, SaaS, and service domains.
- Implemented GSAP animations and motion effects to enhance user engagement and overall UI quality across client projects.
- Built product listings with advanced filtering, cart management, and lead capture forms, increasing user engagement by 35%.
- Converted 50+ Figma designs into pixel-perfect, mobile-first responsive interfaces with cross-browser compatibility.
- Improved Lighthouse performance scores from 65 to 92 and SEO rankings by implementing semantic HTML and structured data.
- Reduced bounce rate by 20% through optimized image loading and critical CSS inlining.

PSS Technoservices Pvt. Ltd.

Web Designer & HTML Developer

Feb 2023 – Sep 2023
Noida

- Built 20+ responsive landing pages and company websites using HTML5, CSS3, and vanilla JavaScript.
- Created a reusable UI component library (buttons, modals, carousels) used across 10+ client projects.
- Ensured WCAG 2.1 accessibility standards and full mobile responsiveness for all deliverables.
- Reduced development time by 15% by standardizing CSS utility classes and JavaScript snippets.

Projects

ERP Management System

- Engineered frontend for CRM, HRMS, Logistics, and Stock Management modules using React.js, Redux Toolkit, and REST APIs. Reduced manual data entry errors by 50% through automated form validations.

E-Commerce Web Applications

- Developed 3 full-featured e-commerce websites with product filtering, search, cart, and checkout. Integrated Razorpay payment gateway and dynamic inventory management via REST APIs.

Real Estate Portal

- Built property listing with advanced search and Google Maps API integration. Implemented responsive inquiry forms and booking flow, generating 200+ leads in first month.

AI-Powered OCR Document Processing System

- Developed an AI-powered OCR system extracting structured data from images/PDFs using Mistral AI and Claude AI APIs.
- Built React.js interface for document upload, preview, validation, and extracted data editing – reduced manual verification time by 60%.
- Automated document classification and data extraction pipelines, processing 500+ documents daily.

Education

Bachelor of Computer Applications (BCA)

Veer Bahadur Singh Purvanchal University

2019 – 2022

Jaunpur, UP
